

## PRESS RELEASE

T.B.Silence with PWM and manual speed control now available

### New Silent Fans: Get under Control

**Hamburg, 14<sup>th</sup> of March 2011.** On CeBIT, Enermax presented the new T.B.Silence series with PWM and manual speed control for the first time. The smoothly running and silent fans are addressed to a wide range of customers. In comparison with the basic model, the new T.B.Silence PWM and Manual provide much more flexibility for the adjustment of speed and cooling performance to the system's requirements.

With the launch of **T.B.Silence** in 2010, Enermax successfully established a silent entry-level fan series. Today, T.B.Silence belongs to the bestselling case fans in many European countries. The basis of the great popularity are the smoothly running and longdurring Twister bearing as well as the powerful Batwing fan blades. The tests of many hardware magazines approved that T.B.Silence offers currently the best price-performance ratio in the market. Now, Enermax extends its case fan range with two further silent series. They are the best choice for users, who like to adjust the cooling performance according to their systems' needs. Therefore, the new T.B.Silence series can be regulated by the mainboard pulse width modulation (PWM) (**T.B.Silence PWM**) or seamlessly with the help of a manual fan control knob (**T.B.Silence Manual**).

#### Manufacturer's suggested retail price (MSRP):

T.B.Silence Manual 8cm (UCTB8A): £6.90 incl. VAT  
T.B.Silence Manual 12cm (UCTB12A): £9.90 incl. VAT  
T.B.Silence PWM 8cm (UCTB8P): £7.90 incl. VAT  
T.B.Silence PWM 12cm (UCTB12P): £10.90 incl. VAT

The new Enermax fan series are now available. Technical details and product photos can be found online: [www.enermax.co.uk/tbsilence-pwm](http://www.enermax.co.uk/tbsilence-pwm) and [www.enermax.co.uk/tbsilence-manual](http://www.enermax.co.uk/tbsilence-manual).
