AIR GUIDE

ENERMAX patented Air Guide brings you brand new experience in managing airflow with a 360° rotatable grill. You can guide cool air directly to the hot spot zones in the PC system by manually rotating the fan grill in clockwise or counter-clockwise direction. EAG001 Air Guide is a creative gadget to optimize airflow.

Features

360° rotatable grill gives 360° airflow coverage

▀ Ideal solution for better airflow management

Application : Mount Air Guide on the front fans.
-Direct the cool air to hot spot zones in the system.

▀ Hassle-free magnetic fan mounting pins are included for easy installation
